Design Features

Kelvin Alligator clips are rated to 175C and are available with and without #22 AWG stranded Teflon wiring.

Kits are available for mounting Loranger surface mount sockets to printed circuit boards.

These kits include fixed or variable torque wrenches and high temperature thread locker material.

Heat Sinks are available for many Loranger sockets.

Low profile metal socket covers featuring a beveled center opening are available to allow probing of the die or package.

Other custom accessories can be reviewed for quoting.
